Profile

Python Developer

Computer Engineer from Universidad del Valle with knowledge in Object-oriented programming. I have programmed in both, back-end and front-end technologies and currently I continue to improve my skills because I think continue learning is the most important tool for any professional. Additionally, I like sharing my knowledge with other people in order to improve professional and personally.

Right now I have domain in the following technologies: Python (Django, Django Rest Framework and PyQt), Javascript (Angular, AngularJS, ReactJS beginner), PHP (beginner in Symfony Framework), HTML5, CSS3 (SASS pre-processer beginner), Git like versions manager in addition to PostgreSQL and MySQL like DBMS.

Tools

Programming languages	Python, Javascript	Frameworks	Django - Django Rest, PyQt, AngularJS, Angular
Platforms	Windows, Linux, Google App Engine	DB	PostgreSQL, MySQL, Google Big Query
Tools	Git, TortoiseGit, VSCode
